

UAYSL Goal Safety Policy

UAYSL Goal Safety Policy is in place to educate and instruct anyone involved with soccer goals of the potential dangers posed by soccer goals and ways to ensure safe operations around goals. The use of the term “goals” in this document refers to metal or plastic framed soccer goals used for UAYSL matches or training.

Soccer goals should remain securely anchored to the ground and nets firmly attached to the goals. In an effort to keep the goals and nets secure and children safe, minors under the age of 18 are strictly prohibited from moving any soccer goals and any use of a soccer goal that is inconsistent with soccer-related activity, including without limitation, playing, climbing, or hanging on any part of the soccer goal.

According to the U.S. Consumer Product Safety Commission, these activities can result in serious injury, including death. If you observe any child inappropriately using a soccer goal or net, immediately and politely ask the child to stop. If the activity continues, please notify a coach or referee as soon as possible. If a situation arises where a soccer goal needs to be moved use extreme caution and allow adequate manpower to move goals. Movable soccer goals should only be moved by authorized and trained personnel.
